About Santi Maha Sangha

The Santi Maha Sangha (SMS) study and practice is a nine-level Dzogchen training course established by Chögyal Namkhai Norbu in 1994. The aim is to ensure the preservation and continuation of the pure Dzogchen teachings—as originally transmitted by Garab Dorje, moving beyond intellectual knowledge to direct, experiential understanding.

Competences

Base Level

- The study and practice of the Base Level are based on the book **The Precious Vase** by Chögyal Namkhai Norbu, which compiles original Dzogchen texts. It conveys a profound understanding of one's own state as well as the fundamentals of Sutra, Tantra, and the Dzogchen view, meditation and attitude. The teachers for the SMS Base can teach based on the content of this book.

Level 1

- The study and practice of the Level 1 are based on the book **The Ati Treasury of Contemplation** by Chögyal Namkhai Norbu. It conveys the understanding of the view in one's condition, the integration of meditation in one's state and the achieving of an authentic behaviour. The teachers for the SMS Level 1 can teach based on the content of this book.

Level 2

- The study and practice of the Level 2 are based on the book **The Treasure of Primordial Bodhichitta** by Chögyal Namkhai Norbu. It conveys how to comprehend the view within oneself, how to integrate meditation in one's state (the four contemplations), and how to harmonize behaviour with circumstances. The teachers for the SMS Level 2 can teach based on the content of this book.
